**Information**

The diagnosis provided by the patient’s doctor will be analysed by the relevant departments in order to determine the feasibility of the diet within the scope of our restaurant.

In cases of severe allergies, which could become life-threatening for the person involved, Eldora SA cannot take responsibility for providing meals and/or snacks and recommends that a packed meal be provided.

In cases of mild allergies, which do not constitute a threat to the person’s health, meals may be provided subject to the criteria provided by the doctor.

In any case, we cannot exclude the possibility of cross-contamination leading to the unintentional presence of one or more allergenic substances occurring in a meal, due to the preparation of all menus in the same kitchen.

**Statement**

We state that we have completed this questionnaire accurately and confirm that the information provided is correct. We also confirm that we have taken note of the information provided by each party.

**The applicant or the parents/legal representative of the beneficiary:**
